inside**

Unique designs

Create flow between the outside and the inside with my nature-inspired art, printed on aluminium. These art pieces are unique and each one tells a story of my travels through the natural world.

Nature is a rhythm of cycles and the ancient beat of seasonal changes brings calmness and quietness. These art pieces have a similar effect.

Please note that this catalogue only contains a small sample of my designs. I have many more to choose from and they can be printed on various sizes. Design collections can also be viewed on my website: www.andreabrand.co.za
